

Several guests spoke with us on Tuesday morning. Three Alta-Aurelia students from Mr. Weber's science class talked about their upcoming NASA Trip. The trip is to NASA Headquarters in Houston, Texas from March 23-26. Their purpose is to work to design a workable space settlement with the help of students from other schools. In addition, they will be consulting with current and former NASA officials. Their completed projects will be judged with the winners going on to further competition in Nashville. The cost per student is \$450 and was partially funded through various activities. The three students are senior Gracie Meier, and sophomores Michael Weiland and Mike Ryherd. Each of these students wrote an essay prior to being selected. Of course, Mr. Weber will accompany them on the trip. Guest speaker number two was Brad Strader from BVRMC. He spoke to us about "Cares for Kids" program. Brad who will begin his 18th year at BVRMC in May is in charge of fund-raising for "Cares for Kids". All funds raised go back to purchase items which kids will need while being treated at the hospital. Recent purchases include Billy beds, child-sized blood pressure cups, pajamas, and child-sized stretchers. Brad also noted that 374 new babies were delivered at the hospital last year.

Kiwanis business:

Feb. 12-- School Pancake Lunch Day.

Feb. 15--- Kiwanis Valentine Supper at Buffalo Ridge 5:30pm.

Feb. 16--- Next pop can collection.

Motion made and seconded to donate to Youth Wrestling program.

Motion made and seconded to donate to family of Alta fire.
