

"The Doctor will see us now." Tuesday's guest speaker was Dr. Kyle Glienke. Kyle grew up in Aurelia and was a member of the Hanover congregation. He majored in Biology at BVU and did undergrad work at Storm Lake Hospital. While there, he worked under Dr's Crippen and Barber. Then in 2009, he enrolled at University of Iowa med school for four years. During his third year of med school he decided on which area of specialty in the medical field. Dr. Glienke chose a combination of family practice and internal medicine. He then attended four years of training in these combined specialties in Indianapolis. After this four year period, he returned to BVRMC and spent the last month of his residency solely under Dr. Barber who was planning to retire. Dr. Glienke then took over as doctor at BVRMC and has recently added OB to his resume. Kyle is married and has a four-year-old daughter, Olivia and a six-month-old son Carsten.

Kiwanis business: Jun. 29---Next pop can collection.

Baseball and softball tourney games July 3, 6,9,10, and 14.
